01 // TOURNAMENT FORMAT

The tournament will be split into 2 rounds the first part will be a round robin system which will last 4/5 weeks, where you will all play each other in a bo7. this will be done via 1 match per week against an opponent chosen by the bracket system. Due to 5 players being in each group someone will either have a free week or can play an opponent who also has a game that week against someone else if they have free time.

Quick note the 1 game per week is just so everyone has time to play there matches BUT YOU MAY PLAY MORE THAN 1 OPPONENT PER WEEK IF YOU WANT TO LIKE THE 2 V 2 TOURNEY FORMAT, so if for example you want to block your matches due to having time constraints you may play all 4 of your matches by the end of week 1 or may not play any until week 3 etc, as long as everyone play there games by the end the 16/10

You are rewarded points based on how many games you win in these matches. for example if you win 4 - 0 you will be rewarded 4 points, your opponent 0 however if you win 4 - 3 you will still be rewarded 4 points but your opponent will win 3 points based on the 3 games that he managed to win despite losing the match overall.

First host and map pick will be the player on the left of the bracket where as player on the right will have first spawn choice. then rotate hosts/map picker and spawn picker until match is completed

If you come down to the 7th game in a match the deciding match is always elevation. this map can also be picked before being the decider also. a map can only be picked 1 time each match with the exception of elevation as the decider and possibly picked before hand

Progression to the next round will be the 4 players that earn the most points in the group stage, 2 from group A and 2 from group B. if 2 players are tied for the same amount of points for example 10

each for 2nd/3rd place then the person who won the match between those 2 players will progress for having the better head to head.

Stage 2 will be a knockout stage set into 2 matches over 2 weeks semi final 1 week final week 2

Semi final best of 9 and the grand final which will be best of 11

The player who finished 1st in the group stage will play who finished 2nd place in the other group and vice versa in the semi final stage and the winners of those games will play each other in the grand final

The host for the first game in semi final will be whoever finished 1st in there respected games and get first map pick 2nd will get first spawn pick

The host for the first game in the final will be decided by coin toss beforehand with the winner of the toss able to decide if they want 1st host and map pick or 1st spawn pick instead
